AirMedia – Connect to All with a Mac

File		Version
AirMedia Deployment Guide		
airm...		
Air...		
airm...		
Air...		
AirMediaFirmwareUtility.exe		
OS X Deployable Application		1.0.2.7
airmedia_deployable_os_x_1.0.2.7.pkg		
Windows Guest Application		1.0.4.8
airmedia_guest_windows_1.0.4.8.exe		
OS X Guest Application		1.0.4.5
airmedia_guest_os_x_1.0.4.5.dmg		
AirMedia Firmware		1.1.0.14
AirMedia_firmware_1.1.0_package01		

Navigate to www.crestron.com/airmedia
and download the OSX client (you will need to scroll down to find the installers)

Download and run the
OS X Guest Application

Each time you run the application, no devices will be found. You will have to manually add the device.

Warning
No devices found, please check your internet connect or enter the connection parameters in the dialog following.
